Professional summary

- 7+ years of experience developing Oracle and PL/SQL-based applications using Oracle PL/SQL and SQL technologies in a Windows environment.
- Strong database experience across Oracle 10g, 11g, 12c, and 19c, including SQL, PL/SQL, stored procedures, functions, exception handling, constraints, triggers, indexes, and views.
- Hands-on experience building Forms & Reports with Oracle 6i, 10g, 11g, 12c, and Oracle APEX.
- Developed complex database objects including stored procedures, functions, table functions, packages, and triggers using SQL and PL/SQL.
- Experienced with Oracle-supplied packages, records, and PL/SQL tables.
- Involved in end-to-end application development using PL/SQL, including creating tables, cursors, and SQL queries.
- Proficient in Oracle APEX application development: Interactive Reports, Interactive Grids, Forms, Pages, Regions, Dynamic Actions, Page Processes, and Validations.
- Skilled in developing and consuming RESTful Web Services (REST APIs) in Oracle APEX, including ORDS (Oracle REST Data Services) RESTful modules, JSON handling, and third-party API integration.
- Experienced in APEX security and access control using Authentication Schemes, Authorization Schemes, and Session State Management.
- Hands-on with APEX UI/UX customization using Themes, Templates, Universal Theme, JavaScript, jQuery, CSS, and Plugins for enhanced application design.
- Worked with APEX Application Builder for building custom workflows, reports, dashboards, and charts using SQL and PL/SQL-driven data sources.
